# Terminology

## Public Budget

A detailed official estimate that outlines anticipated revenue to be collected and estimated government expenditure for a future fiscal year.

## Revenue

All State revenues received from earnings from natural sources, taxes, customs, service fees and all other income sources.

## Expenditure

All State spending made to ensure the provision of services to citizens, including various current and capital expenditures.

## Budget Balance (Surplus/ Deficit)

The difference between expected revenue and planned expenses. A surplus occurs when revenue exceeds expenditure, and a deficit ensues when expenses exceed revenue.

## Chapter I, Salaries and Wages

Expenses are related to salaries, wages, allowances and remunerations for government employees.

## Chapter II, Current Expenditure

All expenses necessary for the work and services delivered by the State and its agencies, including the cost of required materials and diverse services.

## Chapter III, Minor Capex

Expenditure on fixed assets, including all devices and equipment, whether new acquisitions or replacements, necessary to enable ministries and government agencies to perform successfully.

## Chapter IV, Major Project

Expenditure allocated for long-term development projects to ensure the advancement and modernization of State services and facilities to contribute to economic growth.
